Utility Tray XL

Assembly Instructions

PARTS INCLUDED

The Utility Tray XL assembly kit will come with **the pre-assembled Utility Tray XL, a pair of deck extenders, and a hardware pack containing (4) nuts, (4) bolts and (8) washers.**

INSTRUCTIONS

1. Remove **pre-assembled Utility Tray XL, deck extenders and hardware pack** from packaging

-
2. Bolt a **deck extender** into pre-existing mounting holes on the side of the carriage using the nuts and bolts provided and secure. Repeat the step on the opposite side of the carriage. Please note, side skate wheels (2) must be removed to complete this step. Skate wheels can be reinstated once assembly is complete.

3. Place **Utility Tray XL** on the top of the carriage and align with the (4) deck extender mounting holes
4. Fasten using (1) nut, (1) bolt and (2) washers per mounting hole. Repeat for each of the (4) mounting holes.

-
5. Use barrel bolt spring loaded locking latch to pin flap in vertical position

6. Assembly is complete and you may now begin using your **Utility Tray XL**
